General Definition of Variable Elimination (25:21)

Quiz Question

(0 Points) What is this expression equal to:

\[ \tau_1(B) \times \phi_c(B,C) \times \phi_y(C,D) \times \phi_z(D,E) \]

- Nothing meaningful; it is just a product of factors
- \( P(B,C,D,E) \)
- \( P(A,B,C,D,E) \)
